PROFILE

A dynamic and versatile Full Stack Web Developer with hands-on experience in both front-end and PHP backend development, complemented by a comprehensive skill set spanning HTML, CSS, JavaScript, Python, PHP, MySQL, Django, ReactJS and WordPress. Six months of invaluable internship exposure at Vysystems equipped me with practical expertise in crafting innovative solutions, collaborating on WordPress projects, and ensuring seamless functionalities across diverse platforms. Proficient in team-driven environments, adept at implementing responsive design changes, and adeptly managing FTP alterations, I am poised to contribute effectively to cutting-edge web development initiatives.

SKILLS

HTML	Wordpress	Python
CSS	PHP	Django
JAVASCRIPT	MySQL	ReactJS

PROFESSIONAL EXPERIENCE

Wordpress Developer   **June 2023 - Present**

Vysystems (Internship)Wordpress Developement

During my internship at Vysystems, I gained valuable experience in WordPress development. I worked on various projects, honing my skills in theme customization, plugin development, and website optimization. Collaborating with experienced developers, I contributed to building responsive and user-friendly websites, enhancing my understanding of web development best practices. This internship provided me with hands-on experience and a solid foundation in WordPress development, preparing me for future opportunities in the field.

Web Developer   **June 2023 - Present**

Vysystems Front End and PHP Backend Developer

In my role as a Front End and PHP Backend Developer at Vysystems, I had the opportunity to work on dynamic projects that involved both client-side and server-side development. I collaborated with a talented team to create visually appealing and functional user interfaces using TPL, HTML, CSS, and JavaScript. Additionally, I contributed to the backend development using PHP, ensuring seamless integration between the frontend and backend systems. This experience allowed me to enhance my skills in both frontend and backend development, equipping me with a versatile skill set for future endeavors in web development.

ReactJS Developer   **June 2023 - Present**

Additionally, I provided vital support to the React.js team, facilitating seamless design integration and backend connectivity, thus fostering cohesive and efficient development processes

---
